Sanborn Students Learn about the Holocaust

On Tuesday, February 7th and Wednesday, February 8th, Sanborn students studying the Holocaust were visited by Melissa Mannon, Director of the Kingston Community Library. Mrs. Mannon shared her family's experience fleeing Warsaw, eventually settling in the United States, and her grandfather's story of going back to Europe as a non-citizen member of the US Military to clean up after the end of the war. Mrs. Mannon also spoke with the students about the importance of understanding your family history,

and continuing to share the stories that make up our heritage, even after those who lived them are gone.

After School SAT Prep

Studying for the SAT is proven to improve student scores. Extra SAT practice will be available after school. If you've missed a session of in-school SAT prep, or want more practice before March 22nd, there will be Math sessions every Thursday from 2:30-3:30 (sign up with Ms. Gourdreau in advance). English sessions will be in the library on Monday, Feb 13th, and Tuesday, March 14th @2:30. Please reach out to <u>Mrs. Goudreau</u> (Math) and/or <u>Ms. Woods</u> (English) with any questions.

SRHS Art Show at the Kingston Community Library

The SRHS Art Show will be held on Thursday, February 16th, at 7pm at The Kingston Community Library. The show will take place in the gallery space at the Kingston Community Library and will be up through the month of February into March. The show features a variety of our Sanborn Artists!

How to Help your Child Save a Life

By Zach Parker

Recently the High School counseling team taught the Freshmen class about Signs of Suicide, and how to ACT (Acknowledge, Care, Tell) so they are prepared to get help for themselves or a friend. The ACT message is more important than ever. Check in with your child to:

- Acknowledge any concerns they may have about their own emotions or a friend's reactions.
- Care: Show them how much you care by listening and taking their concerns seriously.
- Tell: Make yourself available as a safe person they can tell about big problems.

How would you respond if your child told you their friend might be thinking about suicide? Take some time to start a conversation about mental health. This can be tough for families as often in our society, mental health isn't discussed openly like physical health. Feelings of depression or anxiety are often hidden because youth are confused, embarrassed, or ashamed.

You can help protect your child and their friends by talking to them.

- Ask open-ended questions. Let your child steer the conversation to what they want to talk about. Listen fully, let them relate their concerns to you without interrupting their train-of-thought.
- Don't rush to solve their problems. Instead, ask what they think would help a situation. They may already understand the next step, but will feel better if they can explore some ideas.
- Be available and make sure your child knows it. "I'm around if you want to talk later" may help.
- Try talking on a walk, a drive, or while doing chores or exercise. The relaxed atmosphere makes it easier for some kids to open up.

Please reach out to your building's counseling office if you'd like to connect further, or have some more information about ACT and other prevention plans.
